DANG! presents:

Help and Networking Social!

Monday, July 29, 2019
4 p.m.-6 p.m.
5623 Medical Science Building II

Got data? Connect with the Data Analysis Networking Group (DANG!). We are a peer-led, interdisciplinary forum for trainees and faculty to discuss how to analyze, troubleshoot, visualize, and present their data. Monthly meetings cover requested topics or specific problems/solutions that are of interest to the group. Stop by with data analysis questions, meet the DANG! team and community, and grab a snack!

Find us on MCommunity!
